

JUNE 2010

Backflow Testing Reminder

A reminder that it is **required by both State and local laws to have your backflow assembly tested annually.** We have not received back near as many backflow tests as in years past and Public Works will need to begin checking for backflow assemblies on properties here soon to ensure that households are in compliance. If you have not tested your assembly device, there is still time as the deadline has been extended due to the beginning of irrigation season being pushed back because of rain. For a list of current certified Backflow Assembly Testers for the State of Oregon, visit:

http://oregon.gov/DHS/ph/crossconnection/docs/public_list_certifiedbat.pdf

Should you have any questions concerning your backflow, please contact the city during normal business hours.

**THE DEADLINE
FOR THE CITY IS
